How United States Obtained Proof of Pertidy of Germany; El Paso Involved

HOW the United States secured the sensational German papers proposing to Mexico that it make war on the United States as an ally of the kaiser, and, in the event of victory, accept as payment the former territories of Texas, Arizona, New Mexico and California, has come to light,

The El Paso Herald has secured the confession of the German secret agent who brought the documents to Mexico. This agent was a beautiful woman, countess Hilda von Schaumberg. She made the trip from Germany to Mexico in a submarine. Failing with Carranza, she placed the plan before Villa. Wishing to restore himself to the good graces of the United States, Villa held her a prisoner, plan-

ning to surrender her to the American authorities. She was rescued by a German agent from El Paso, brought to this city and sent on her way, but the most sensational part of the story is how an American secret service agent obtained the papers from her after she reached El Paso.

The story is teeming with sensational interest. It is the biggest newspaper story of a decade. It bares the plans of Germany to involve Mexico and the United States and establish submarine bases on the Mexican coast; of further plans to bring Japan in as a German ally to raid the United States and thus keep America out of the war against Germany.

German duplicity is shown in that a scheme is based by which, if Carranza, Villa or any of their subordinates had accepted the plan, the German government was to let the documents get publicity and either involve Mexico and the United States at once in war or prevent the United States, through fear of a Mexican attack, from entering the world war against Germany It was one of the most astounding plots the world has known-

The diary of the countess was extracted from her papers in Berne, Switzerland, following her unsuccessful attempt to carry out the kaiser's plot. The confessions are now being published in the Empire News in London and are exciting a tremendous sensation. The American rights have been purchased by the International News Service, of Boston. The El Paso Herald has purchased the southwestern rights.

The first instalment will appear Monday. The instalments will continue daily until completed.

Every American should read this great expose of the duplicity of Prussian diplomacy. You can't lay the paper down when you start reading the first instalment, until it has been finished.

and you'll wait with anxiety for the next. It is the biggest sensation an American newspaper has had to offer in years.

You Must Pay an Income Tax; Read Article in This Paper

E VERYBODY is inferested in income taxes, for everybody is going to have to pay taxes—the majority anyhow.

The El Passe Herald today prints an analysis of the recently passed tax measure, showing just who will have to pay taxes and how much. Every single man with an income alone \$1000 a year and every married man with an income over \$2000 will have to pay taxes to the government and he must voluntarily make his report early in the coming year under them by a paying \$1000 if he fails. The government has no year under penalty of paying \$1000 if he fails. The government has no intention of hunting you up and telling you to report, but it will next you

up if you fail to report.

This article should be read and studied by every reader; it should be cut out and saved, as it is informative and you will need this information after awhile. It is on page 15.
